Simple Serial Interface (SSI)

Select this host type when connecting to a Zebra mobile device or PC/tablet/phone running a Zebra scanner SDK app.

- **SSI BT Classic (Non-discoverable)** - Enables communication with Zebra Mobile Computers. It enables the scanner(s) to establish a connection with the host over Classic Bluetooth radio. The scanner is NOT in discoverable (Master mode).
  To establish a connection (initial setup only):
    i.   Scan the **SSI BT Classic (Non-discoverable)** bar code.
    ii. Scan a pairing bar code with the host device's MAC address.

    ✓ **NOTE** Additional steps may be necessary depending on host's Bluetooth stack.

- **SSI BT Classic (Discoverable)** - Enables communication with Scanner SDK for Android generated apps. It enables the host to establish a connection with the scanner over Classic Bluetooth radio. The scanner is in discoverable (Slave mode).
 To establish a connection (initial setup only):
    i.   Scan the **SSI BT Classic (Discoverable)** bar code.
    ii. From the host, discover Bluetooth devices.
    iii. Select your scanner from your discovered device list.

- **SSI BT LE -** Enables communication with Scanner SDK for iOS generated apps. It enables the host to establish a connection with the scanner over Bluetooth Low Energy radio. The scanner is in discoverable (Slave mode).
  To establish a connection (initial setup only):
    i.   Scan the **SSI BT LE** bar code.
    ii. From the host's application, select your scanner from the discovered device list.
